

### Coldores shaft seal kit for Grasso MS 1022

Coldores® is a brand name for sealing materials and mechanical shaft seals by RM Support and the sister company IM Supply. RM Support is a well-known company active in the field of industrial refrigeration, production, overhaul and technical consulting. IM Supply is more focused and specialized in the field of materials supply and solutions for technical maintenance and support.

As of now, the Coldores HR replacement shaft seals are available for the Grasso compressors. The shaft seal kit 777545062802 is an improved replacement for MS 1022 [OEM number: 09-62-162].

Coldores HR shaft seals are **Heat Reducing** in operation. Less generated heat will avoid the shaft seal from dry running and blistering damage.

Coldores shaft seals are manufactured in Europe and are required to meet high quality standards for refrigeration compressors and rotating equipment.

More information is available on the website: [www.coldores.info](http://www.coldores.info).
