Capacity indication :

Condition by Heating full load – 1428 KW COP 4,61 (Evaporator entry / exit water temperature 10°C/7°C- condenser entry / exit water temperature 40°C/45°C, fouling factor evaporator / condenser 0M²K/W)

Condition by cooling full load – 1305 KW COP 5,50 (Evaporator entry / exit water temperature 12°C/7°C- condenser entry / exit water temperature 30°C/35°C, fouling factor evaporator / condenser 0M²K/W)

The new Thunderbolt twin rotor Compressors are special designed for VSD Drive, the oversized bearing construction, advanced Lubrication system together with additional oil separator in the condenser , the sound reducer in the discharge line realize compact effective trouble free working long life of operation against a very low energy consumption.
