

**A really Stall SVB 75
E-motor 275 KW**

Complete unit SVB75 available as unit of in parts .

The unit is suited with a 275 kW E-motor – water/ glycol cooled oil cooler.

Typical Stall L Construction – Compressor and E-motro on 1 baseframe. The oil separator can be monted on a corner . At this moment the compressro controller is the stalltronic – this can easy be replaced by a Unisab.

Stall SVB75 models are heavy duty - Strong due the radial youral bearings and thrust bearing construction for the Axial play. Oil pump is mouted direct on the compressor . Still all spareparts are available.
